

# Tan Cloth Electrodes Tyco or MultiStick™ Electrode Gel

We only use the highest quality (MultiStick™ or Tyco brand) gel electrodes. Our electrodes are private labeled but Tyco or MultiStick™ are considered the highest quality electrode brand gels available. They come in a foil pack and if properly stored can have a shelf life of up to three (3) years.

All our programs come standard with the 'Tan Cloth' 2.00" Square Electrodes. Special orders can be placed on our 'Place Order' form.
