

Energizer Industrial Brand Batteries

Standard Energizer Batteries vs. Energizer 'Industrial' Batteries:

Energizer industrial grade batteries are Energizer's top line of batteries designed specifically for professional use. The Energizer Industrial battery is a high quality alkaline cell available in an economical bulk industrial package. The Energizer Industrial battery is the preferred choice of professional sound technicians, broadcasters, hospitals, police and fire departments nationwide. Energizer's Industrial battery is great for businesses, organizations, and agencies that require high-reliability, long-lasting batteries in their operations.

There is no better brand than Energizer™.

Most other companies use 'off brand' batteries. Energizer is the preferred brand of most professionals.
